For years at SouthGate our focus has been to provide our freshman and sophomore students the ideal environment for a great start to their college careers. Combined with a focus on success in academics, we strive to infuse our students in the deep traditions of FSU. School spirit, university involvement, and campus life are all the cornerstone of SouthGate’s Residence Live program. We truly believe when our kids leave, both parents and students together feel they have taken away the best freshman experience at Florida State.

SouthGate is committed to academic pursuits by offering parents a complete student living package giving our students everything they need to be successful for their first year of college. Focusing on school and doing well throughout freshman year, our students have everything provided for them. Some of the orientation sessions are together with your student and some are not. We ask that you only attend sessions that are on your schedule. Everyone is provided the same information throughout orientation; however, it may be presented in a different manner for effectiveness. In addition to the schedule, we have provided campus resources with information about offices, programs and events we encourage students and families to utilize during their time at Florida State University.

Within the Holopaw, you will also find the 2017 Orientation Leaders. These current Florida State University students serve as your liaisons to campus. They are campus experts and are here to assist you in your transition to FSU, so please feel free to ask them questions!

We hope that you enjoy orientation and, more importantly, that you leave campus excited about Florida State University. Once your student enters Florida State University he or she will be under a new set of laws that protect the privacy of their records. It may come as a surprise when family members call FSU and find they cannot gain access to all information concerning their student’s records.

The Family Educational Rights and Privacy Act (FERPA) was put in place to protect student records and privacy from those who might misuse this information if they gained access. Student medical*, judicial, academic, and financial records are restricted to access by the student and those the student approves through signed privacy release documents.

It is important to understand that Florida State University does not release information regarding your student without permission to ensure the protection of your student and family. However, there is select information that is considered “Directory Information” that can be released from Florida State to the public, including a student’s name, date of birth, birthplace, local address, telephone number, etc.

In order for the University to release this information to a third party, your student must elect to give that individual third party access to their information through his or her Blackboard account via the Secure Apps tab. They can choose the level of access you may have, including grades and financial information.

FERPA, for many families, is a confusing issue especially when family members need information about their student for insurance purposes or enrollment verification. In situations like this, have a conversation with your student about their grades, class attendance, finances/tuition bills, and conduct. Having and maintaining open communication and a supportive environment will ease the tension for both you and your student. Often, your student will share openly, without the need of written consent, what is going on.

Please know that Florida State University is willing to help answer any questions regarding FERPA. Some helpful websites and phone numbers to contact about FERPA and release forms include:
